

Dave Evans

High Performance Coach-Seniors

Wales Squash

In my younger days I was a professional squash player who reached a career high of 3 in the World rankings, along with helping Wales achieve a runners up position

at the World Team Championships. I have represented Wales as a player at 4 Commonwealth Games along with playing for Wales over 100 times at major events.

After retiring from professional squash I took up the position of Director of Squash in Jersey the Channel Islands which I held for 5 years. I then returned to Wales and took up the role which I currently hold of Senior High Performance Coach.

My role is to ensure Wales achieve the highest results possible at major events along with helping the players achieve greatness on the World tour.
